UPSTAIRS

Upstairs is a stylish, clean and elegant canvas that can be transformed to cater (pun intended) to any theme or event. Designed by local architecture firm, Wildetecture, the venue gives the welcoming feeling of a New York City style loft apartment, but in the heart of the coolest street in Cape Town.

We're the new kid(s) on the block, and it shows.

We'll always go above and beyond to make sure that your event is awesomely unforgettable, right down to the nitty, gritty details.

SO, WHAT DO WE ACTUALLY DO?

To be honest, we're kind of all-rounders. In short? Pretty much whatever you want. These are the types of events that we've done in the past, but we're open to (almost) anything.

WE'VE DONE:

Corporate Functions // First Thursday Events
Bachelorette Parties // Engagement Parties
Cocktail Functions // Art Exhibitions // Weddings
Birthday Parties // Product Launches // Quiz Nights
